

# windoware™ Colour Story

## 10 Standard Colours \*

Unless stated on the pricing page or on [www.windowizard.co.nz](http://www.windowizard.co.nz), our tracks and track rods come in our 10 standard colours at no extra charge. Brackets and finials are colour matched, glider and plastic are colour co-ordinated as they are plastic and an exact colour match between metal and plastic is not possible.

(\* With the exception of curved and square M System which is available in Pearl White at no extra charge.)
